Listing of Claims:

Claims 1-12 (canceled)

Claim 13¹ (currently amended): A The method for mounting a sundeck to a boat, wherein the sundeck has a first leg connected to a second leg at an angle, the first leg being shorter than the second leg, and each of the first and second legs having first and second surfaces, the method comprising:

providing a clamp structure including two clamping members;

maneuvering the clamp structure so that ~~a first end of a~~ a middle section of the first leg of the sundeck is positioned between the ~~elaming~~ clamping members such that the two clamping members face first and second surfaces of the first leg, respectively;

closing the clamp structure to engage the sundeck;

lifting the sundeck with a boom and lift assembly connected to the clamp structure;

connecting the sundeck to a back region of the boat while the boom and lift assembly hold the clamped sundeck at a desired position relative to the boat; and

disengaging the clamp structure from the sundeck when the sundeck is connected in the desired position.
